CORTES FORESTRY

GENERAL PARTNERSHIP

Employment Opportunity – Squirrel Cove 2017 Tree Planting/Cage Installation

The Cortes Forestry General Partnership is seeking qualified applicants to conduct the spring 2017 reforestation program at Squirrel Cove. Duties will include both tree planting and the installation of seedling protection.

Project Details

Tree planting will occur at cutblocks SQ1, SQ2, SQ3 and SQ5 as per the attached map. A total of 6160 trees are to be planting as per the table below. The planting density is 800 trees / ha. The detailed stock description is attached.

Block	Area (ha)	Total Trees	Cedar	Douglas Fir
SQ1	1.2	960	480	480
SQ2	2.5	2000	1600	400
SQ3	2.6	2080	730	1350
SQ5	1.4	1120	230	890
Total	7.7	6160	3040	3120

Seedling protection is to be installed on all the red cedar and approximately 50% of the douglas fir. The cages will be 4' sinocast 'Tree Cones' and the stakes are locally milled 4' red cedar stakes.

Applicant Suitability

The successful applicant must have appropriate Workman's Compensation Board (WCB) coverage to work on Cortes Community Forest Lands. WCB coverage in good standing will be checked prior to work commencing. The applicant will also provide their own access to the worksite. The trees, seedling protection, and tree stakes will all be delivered to the worksite.

Selection of the successful applicant is based both on contract bid price and applicant suitability. All interested parties are asked to submit a brief resume outlining past silviculture experience and a contract bid price. The bid price will be a 'per tree' price both for tree planting and for protection installation. Clearly state the price for planting each tree and installing each cage.

For additional information please contact Matt Cuscianna (250 202-7348, or exitmybrain@hotmail.com).
